1. This application is in condition for allowance except for the following formal matters:

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, at least one electronic component thermally coupled to the cover recited in claim 9 must be shown or the feature(s) canceled from the claim(s). The examiner suggests showing reference number for electronic component. No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner,

the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

3. The abstract of the disclosure is objected to because of legal phraseology ("comprises at line 1) Correction is required. See MPEP § 608.01(b).

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

4. Claims 1-17 would be allowable if rewritten or amended to overcome the drawing objection and the specification objection, set forth in this Office action.

The following is a statement of reasons for the indication of allowable subject matter:

The primary reasons for the indication of the allowability of claims 1-17 are the inclusion therein, in combination as currently claimed, of the limitation of at least one duct in communication with the channel such that a filling compound injected into the duct is received in the channel, the filling compound attaching the cover to the frame and providing a seal therebetween (for claims 1-10) and claims 11-17 are method counter part of products claims 1-10.

The previously listed limitation is neither disclosed nor taught by the prior art of record, alone or in combination.

Other prior art cited

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure, Guan et al, L. R. Woodling, Quazi, Gibbs, Oda and Huang disclose a housing similar to applicant's claimed invention.
